Fr. Jack Soulsby is a most popular speaker with a cherubic (but mischievous) smile who has that unusual gift of drawing audience interaction with each other into a spirit of contagious communal fun

and fellowship, Fr Jack forsook his lucrative career in civil engineering

to take up the call of the priesthood- building and strengthening foundations for followers of Christ in Christ.

He found his mission through a conversion experience while exploring

The Charismatic Renewal and has been afire with the enthusiastic

spirit of evangelisation ever since. While his home is Australia, he

frequently travels to the poorer (and dangerously unstable) countries,

such as Africa, where he ministers to, and dances with, the thousands

who come to hear him, share time with him and be uplifted by him.
